

INDUSTRIAL BEVELER

The Q1E Industrial Bevelers feature a super quiet, heavy-duty motor mounted on a super solid base, smooth SST sliding surface and switched AC power outlet for easy integration with a vacuum chip removal system. The Q1E quiet industrial beveler is designed for continuous operation and can be used on all engraving stock up to 1/4" thick. It has a maximum chamfer of 3/16" and a large 4" x 16" table. Cutter provided 11/64" x 4.25" x 45° 3 fluted for the 11/64" version and 1/4" x 4.25" x 45° 3 fluted for the 1/4" version. Warrantee 2 years on non-consumables.
